

WELDER

We are seeking a Welder to join our team here at Lock Fusions, LLC.

At Lock Fusions, LLC, we focus on using our knowledge and expertise to provide quality work and exceptional service with specialization in pipeline welding and industrial maintenance. As top performers throughout the Oil and Gas Industry we continue to grow and develop our entire team. We are in search of applicants at all levels of experience. Pay based on skills and experience. Learn more about our company by visiting www.lockfusions.com.

The ideal candidate for this position will have experience in various welding techniques and an understanding of fabrication processes. This role involves working on construction sites and in a welding shop environment, where precision and attention to detail are essential.

Key Responsibilities

- Perform MIG and Stick welding
- Utilize hand tools, power tools, and welding equipment to fabricate components as per design requirements.
- Collaborate with team members to complete projects efficiently while adhering to safety protocols.
- Maintain a clean and organized work environment.

Requirements

- High School Diploma or GED.
- Applicants will need to hold a valid Driver's License
- All employees are subject to pre-employment and random drug and alcohol testing.
- Applicants are willing to travel as pertains to certain jobs (approx. 75% of the year).

Qualifications

- Proven experience in basic structure welding.
- Proficiency in various welding techniques.
- Familiarity with fabrication processes and the ability to operate machinery.

- Strong mechanical knowledge with the ability to perform basic math calculations for measurements.
- Competence in using hand tools, power tools, and welding equipment safely.
- Requires strenuous physical activity, including lifting, bending, and standing for long periods of time.
- Ability to read and interpret blueprints, schematics, and technical drawings to determine project specifications, is preferred but not required.
- Knowledge and/or experience in pipefitting, and uphill/downhill welding, are highly desirable.
- OSHA 10 and OQ testing completion are a plus.

We are looking for an individual with a strong attention to detail and a commitment to producing high-quality work. If you are searching for growing business to advance in your welding career, apply today.
